Hiring Manager

SBI LY HOUR Bank

Phnom Penh, Cambodia

Dear Hiring Manager,

I am writing to express my interest in the Trainee, IT Security position at SBI LY HOUR BANK. I am currently pursuing a Bachelor's degree in Network Engineering and Security at Norton University, where I have built a solid foundation in networking, system administration, and core cybersecurity principles.

Through my training at SalaCyber and self-practice in a virtual lab environment, I have completed 15+ cybersecurity labs, including vulnerability scanning with Nmap and Nessus, traffic analysis with Wireshark, and exploitation with metasploit. I have also gained practical knowledge of firewall configuration, intrusion detection/prevention systems (IDS/IPS), and log analysis, skills directly relevant to your team's daily operations.

I am particularly interested in this opportunity because SBI LY HOUR BANK is known for its commitment to innovation and security in digital banking, values that align with my own passion for protecting financial systems from cyber threats. I am eager to contribute by supporting the IT Security team with log monitoring, vulnerability assessments, phishing analysis, and other day-to-day operations, while learning from experienced professionals.

Thank you for considering my application. I believe my strong motivation, analytical mindset, and eagerness to grow in the cybersecurity field make me a good fit for this trainee position. I would welcome the opportunity to discuss how my technical foundation and eagerness to learn can support your team's mission, and I am available for an interview at your convenience.

Sincerely,
Nin Kanong
